Hi Vicky,

I will be making reference to the following two attachments as part of our conference call at noon EST today.

Ralph

Subject: Request your participation in Monday Noon (Eastern) call

**Time critical!** We are hoping to get your best read on data from Dimock.

We have identified that OSWER's Risk-Based Screening Levels for Drinking Water for Arsenic, Aluminum, Iron and Manganese have been revised with latest update:

[http://www.epa.gov/reg3hwmd/risk/human/rb-concentration\\_table/Generic\\_Tables/index.htm](http://www.epa.gov/reg3hwmd/risk/human/rb-concentration_table/Generic_Tables/index.htm)

Attached table shows the levels

In addition, the attached table lists organics that have been identified (many at very low levels) in some recent samples, for which we are trying to ascertain risk.

Many thanks for your assistance and cooperation!--Vicky
